CREATIVE TUTORS 4 KIDS MCKINNEY NOW OFFERING MATH AND SCIENCE TUTORING

Support Provided for All Student Ages and Levels

McKinney, Texas (October 8, 2004) Creative Tutors 4 Kids, McKinney, now offers math and science support for students of all levels and ages. To meet the demands of a globalized market, all children need to improve their math and science skill foundations. Scholarship opportunities are plentiful for those students with high math and science abilities, whereas weak math and science skills impact students throughout their education. This weakness is frequently seen in girls starting in grade four. Creative Tutors 4 Kids is offering programs and tutors who specialize in these basic skill areas.

“One of the main reasons I founded Creative Tutors 4 Kids was to be a resource for families of girls in grades four through seven,” says Creative Tutors 4 Kids founder, Jan VanBlarcum. “These are the years that girls need to have excellent educators in their lives who can mentor them through these formative years. Girls can lose whole career opportunities if they do not stay engaged in math and science during this time.”

“Math and science foundations must be established early,” says McKinney Creative Tutors 4 Kids owner, Bill Perrott. “Young children naturally enjoy math and science during the early years, but keeping them engaged and excited about the subjects becomes increasingly more difficult. Children begin to view these subjects as hard, but really, they do not have the foundation to perform at a higher level.”

Creative Tutors 4 Kids McKinney offers tutors suited to the individual needs of each student. It offers math and science education to improve skills from preschool through college for all learning styles and levels. While struggling students benefit from tutoring services, so do gifted and talented students who feel under challenged in the public school system. Creative Tutors 4 Kids McKinney is the McKinney franchise of Creative Tutors 4 Kids International, Inc. The company’s mission is to help kids reach their potential on their way to becoming self-confident adults. That assistance contributes to a successful future as a better employee, public servant or community service volunteer. Creative Tutors 4 Kids believes in

improving the community one child at a time. For more information, call 1-877-TUTORSU or 972-781-2783. Visit the Creative Tutors 4 Kids Web site at www.creativetutors4kids.com.
