

Do you remember being in school?

Now imagine having to learn twice as much.

To get ahead in today's world, with the rise of the technology and the growth of the information age, your child has to learn everything you did and more. In fact, experts say the amount of knowledge available to the human race has doubled in the past 20 years. With these increasing demands, it's easy for children and parents to feel overwhelmed.

At Creative Tutors, we're here to help with a full range of comprehensive services, for students of all academic abilities from pre-kindergartners to high school seniors. Our professionally licensed and trained tutors will work with your child one-on-one in your home or at an after-school facility on areas such as:

- Homework assistance
- TAKS, PSAT, SAT, and ACT preparation
- Science fair projects
- Special needs guidance
- Gifted and talented instruction
- Home-schooling enrichment
- And much more

Our tutors are certified to teach all subjects including mathematics, language arts, sciences, foreign languages, history, and social studies. And, your child will be carefully evaluated so that an effective program can be developed to fit their individual learning style- creating a strong base for success and self esteem.

shaping minds
shaping lives

individual attention

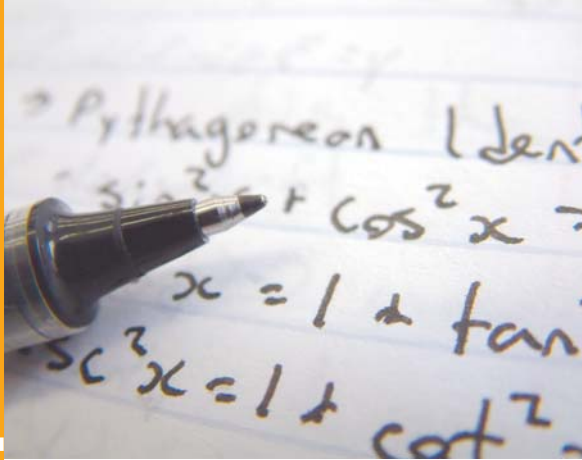

Creative Tutors is here for every kind of student – from those who are struggling to those who need more challenges. Unlike most tutorial services who focus only on generalized needs, Creative Tutors provides personalized instruction based on each child's unique requirements and personality.

Our staff of experts examine every aspect that influences how each child learns. During one-on-one sessions, we use our intuition and expertise to gain an insight into how your child's mind works best. We also discuss goals and challenges with parents and teachers. Parents are asked for their opinions and every teacher referral is reviewed in-depth. And if needed, we'll also visit the classroom and meet with the teacher to define additional areas of growth.

Throughout the process, we'll continually evaluate the program and adjust any element as needed. Your child's progress will be tracked by regular session and achievement reports to keep you informed and allow us to respond with any necessary changes.

* Every tutor undergoes a background check.

unlocking potential

Our mission and unwavering commitment is to ensure that each child is realizing their true potential at a rate and comfort level that will guarantee long-term success, confidence, and information retention.

With individualized tutoring, students experience less adjustment time and each session can be more productive. It allows the children to realize that they can face their challenges and expand their minds – giving them a powerful perspective and strength in character they can use today and for the rest of their lives. Children learn that it's okay to ask for help and that they deserve to have dedicated attention to help them reach their goals.

As a parent, you're a crucial part of this process. If you see that your child is facing any academic challenges, please call and talk to one of our experts. Together we'll find a solution that will help your child achieve their very best.

CREATIVE TUTORS®

flexibility

Our services are available seven days a week with hours that fit your family's busy schedule. You choose the time and the place that is best such as in your own home, or an approved after-school facility.

You can also trust that your child is with a professional, licensed educator who is dedicated to helping your child succeed.* In fact, many of our tutors are recipients of Teacher of the Year Awards and Presidential Award Winners, hold master's degrees, and have highly specialized training in education and child development.

And, if you're looking for fun-filled, educational activities for your child, Creative Tutors also offers day camps throughout the year and summer camps when school lets out.
